

# Shining a Spotlight on Younger Onset Dementia

Younger onset dementia can appear as early as your 40s – while you're working, raising kids or leading a team. A diagnosis can feel isolating and unexpected. Maranoa Club is here to change that.

## At BASScare's Maranoa Club:

- ✓ You can stay social & stay active
- ✓ Find a supportive, inclusive community environment

**TOO YOUNG FOR  
DEMENTIA?  
THAT'S WHAT WE  
THOUGHT TOO.**

# FINDING YOUR PEOPLE

Connection, community and shared purpose for people with younger onset dementia.

## Maranoa Club | BASScare

**You're still in charge of your life.  
Let's make the most of it.**

A younger onset dementia diagnosis changes things – but it doesn't change who you are. You can still build new connections, take on challenges, stay active and be part of something that matters.

At the Maranoa Club, we focus on what's next – not just what's changed. It's a place where people with shared experiences come together to stay social, stay active and support each other along the way.

## Stay connected. Keep moving forward.

The Maranoa Club is based in leafy Canterbury. It's a relaxed, welcoming place to meet others, try new things and stay involved. Whether you're up for a conversation, a walk, a creative project or an outing, the Club gives you a reason to get out, connect and take the day on.

No pressure. No explanations needed. Just people who get it.

## What does “Maranoa” mean?

The Club is named after Maranoa Gardens located nearby.

“Maranoa” is thought to come from an Indigenous word meaning flowing water — a fitting reminder that life continues to move and we can choose how we move with it.

# Know your options. Take confident steps.

Not sure where to start? Our Dementia Advisor can give you straightforward advice about available services, funding (like the NDIS) and how to plan ahead.

We'll help you cut through the noise and focus on what's possible — and what's next.

## The details.

- Weekday programs in Canterbury
- Funded may be available through NDIS
- No referral required
