Where Every Day Holds a Little Magic.

# Support That Meets You Where You Are

Deciding to get services at home is an important step. Whether you're looking for a little help day to day or exploring Support at Home options, we're here to guide you. Our team takes the time to understand your circumstances and what would make life feel more manageable.

Our services can be funded through Support at Home, CHSP or paid for privately. Government funding can feel complex, but we're here to unravel the details with you, step by step.

Whether you're just beginning or already know the kind of support you're seeking, we're here when you're ready.

# Services at Home, Just How You Like It

Our homes are more than walls and rooms; they are the keepers of our stories and the protectors of our memories. They hold the rhythm of our days, the familiar comforts we reach for and the sense of belonging we return to without thinking. We recognise your heartfelt hope: to remain in the sanctuary of your own home for as long as possible.

Delivered across Boroondara and nearby suburbs, BASSCARE's Home Services offer practical support while helping you continue living the life you know and value. Its assistance shaped around your needs, your preferences and your way of living.

## Support at Home

Support at Home is the new national approach to in-home care, bringing earlier programs together into one clearer, more flexible system. Its aim is to help older Australians receive the right help at the right time. With eight levels, from light assistance to more comprehensive care, services can change and grow as life does.

Our trusted staff deliver a wide range of Support at Home services, offering practical help with a steady, familiar presence. For needs beyond what we provide directly, we partner with an extensive network of providers, ensuring you have access to the full range of support the system offers.

### With BASSCARE, you can expect:

- **Guidance to understand your support level.**
- **Tailored services that evolve as what matters to you changes.**
- **A local team who knows you, listens to you and supports you with genuine understanding.**
